Work Experience

Full Stack Engineer
Gunbuyer.com - Daytona Beach, FL
June 2020 to Present

Creating a fully mobile responsive, fully assessable, by hand, front end & a full back end with one other developer. This whole site is crafted by a team of three, two devs and a manager.

Also taking on the role of a UX/UI designer making design decisions on what the site should look like and it's functionality.

Manipulating data from vendors to fit our backend schema.

Learning on the job new to me tech such as Magento 2 & PHP.

Main Tech: PHP, Magento 2, SQL, Apache, SOAP/REST

IT Consultant
Self Employed
June 2016 to Present

Innovative solutions for clients based off of their needs.

Work ranges from setting up home offices to building servers, laying cables, and network architecture.

Full Stack Developer
Dermatology Consultants of Asheville - Remote
January 2020 to June 2020

In the process of creating the practice website to drive traffic to the business. Using Google Analytics, SEO, and targeted ads to drive traffic to the site. Create software to help business efficiency and drive up revenue.
